

Figure 1.3 Oriental persimmons are highlighted against a backdrop of early morning fog. Persimmon trees keep their colorful fruit long into winter, when bright colors are needed in an edible landscape.

Figure 1.4 For a blaze of spring blossom, the 'Garden Beauty' nectarine is hard to beat. The profuse bloom gives a preview of the copious crop soon to follow. While the newer miniature varieties have superior flavor, I often plant the 'Garden Beauty' for its unequalled floral display.
